

**Ventura Pekingese Club Open Show (am)**

**Saturday 2<sup>nd</sup> May 2015**

**Critique**

I would like to thank the Committee of Ventura Pekingese Club for their invitation to judge this Open Show held at a quaint memorial hall in Holyport near Maidenhead. Although numerically small there were some quality exhibits who I will watch with interest in the future. Thanks to all the exhibitors who took the time to show their dogs under me, it was a pleasure to give my opinion.

**MPD**

- 1) **Shaw, Francis & Mee's Pekehuis Tuxedo** – 6 Months fawn b/m, thick set front legs, tidy front, correct head shape and that wonderful 'look at me' expression, well placed facial features, broad level topline, correct tailset, nicely shaped rear. I predict a bright future for this youngster. RBD, BPIS.
- 2) **Goddards Lilymead Casanova** – 6 Months fawn b/m, correct front, typical head and expression, broad level back, moved well with confidence. On the day preferred the 'ring presence' of 1.

**GD**

- 1) **Heffernans Mezrab By Dezine** – 18 Mth Old, fawn b/m, thick set well knuckled front legs, deep chest, nicely constructed front, beautiful envelope shaped head, darkest of eyes, open nostrils, strong underjaw. Broad, level topline, barrelled ribcage, strong hind quarters, correct tailset, picked up heavy, he moved with ease showing the correct Pekingese rolling action. If I was over critical I would like him slightly shorter in loin but nonetheless this young man should have a bright career and is a wonderful ambassador for the breed. BD, BIS.
- 2) **Bedfords Goldpeke the Huntmaster** – 22 Mths Old, Red, b/m, nicely shaped head with dark eye, level topline, moved well.

**PGD**

- 1) **Klerks-Delucchis Klerkshof Maddison** – 6 Mth Old Pale Fawn, b/m presented to perfection, beautiful head and face, correct envelope shaped head, deep forechest, level topline, correct tailset, strong rear quarters, moved well.
- 2) **Morley & Boxs Jidoran Rula** – 6 Month Old Fawn b/m, smaller, lighter coated girl but lots to like, correct head and expression, well settled front, nice ribcage and tailset.

### PB

- 1) **Morley & Boxs Jidoran Rebekah** – Litter sister to 2<sup>nd</sup> in MPB I found this girl slightly more mature and developed in body than those in MPB Class although same age, breed typical head and face with darkest of masks, strong neck, nice ribcage, level topline, nice for size and shape and moved with ease. RBB, BPB.

### JB

- 1) **Shaw, Francis and Mees Pekehuis Matinee** – 13 Months Old girl, very feminine and presented in top condition. Nicely constructed front, dark eye, open facial features, level back, correct tailset, moved well. Although still only a youngster this girl could not be overlooked for **BB & RBIS**. I will watch her career with interest.

### GB

### VD/B

- 1) **Heffernans Yakee Oh Sunny Day At Mezrab** – lovely 11 Year Old girl fawn b/m I had judged previously, very hard to fault, classic head and face, strong front with good forechest, level topline, moved well. A true indication of how well this breed can look after 'pension age'. BVIS.
- 2) **Shaw, Francis & Mees Franshaw The Contendor** – another veteran who is a credit to his breeder, red fawn b/m, classical head and face, strong front, level topline, cobby body, correct tailset, moved well. Tough decision in challenge!!
